

Modern Slavery Statement

The Benedict Group reiterates its commitment to the Modern Slavery Act despite not meeting the reporting criteria. Our Board, Executive leadership, and staff are fully aware of their responsibility and desire to adhere to the Act and are actively engaging with all relevant stakeholders in our community to eliminate modern slavery.

Collectively, they acknowledge that it requires continuous commitment and focus. To this end, we have begun incorporating and updating our policies and procedures (where appropriate) to ensure that we address these issues throughout our business, supply chain, and procurement processes.
